PROJECT WORK

Umamin (Co-Founder and Front-End Developer) – [Live URL](#) 2022 – Present

An open-source social platform for encrypted anonymous messages

- Achieved over **2.6 million unique users**, generating **14.5 million+ page visits**.
- Built an intuitive user interface that drove over **700,000 unique users within the first week** of launch.
- Generates monthly recurring revenue (MRR) via Google AdSense monetization.

AI Chatbot (Software Developer) – [Live URL](#) 2024 – 2024

Artificial Intelligence Chatbot with Large Language Model (LLM) integration

- Integrated Generative AI powered by OpenAI's GPT-3.5-turbo large language model.
- Implemented OpenAI's API in React/Next.js project via Vercel AI SDK for seamless generative user interface streaming.

GitHub Statistics Generator (Software Developer) – [Live URL](#) 2024 – 2024

A tool for seamless generation of personalized GitHub statistics cards with over 40 unique themes

- Used by **hundreds of developers** to effortlessly generate personalized GitHub statistics cards.
- Undertook a comprehensive redesign and complete codebase rewrite, modernizing the project, and significantly enhancing performance, features, and overall user experience.

Quotia Social Platform (Full-Stack Developer) – [Live URL](#) 2023 – 2024

A Social Media Application built with modern technologies

- Developed using a serverless database, ensuring scalability and cost-effectiveness.
- Leveraged tRPC (Typescript Remote Procedure Call) to create an end-to-end typesafe API.

EXPERIENCE

Open-Source Developer Sep 2021 – Present

Omsimos Developer Collective

Remote

- Developed and maintained multiple projects with around **100,000 monthly active users** (MAU).
- Contributed to multiple community-driven projects, enhancing open-source software.

VP for Technology Feb 2024 – Present

DEVCON (Developers Connect) Bacolod

Bacolod City, Philippines

- Managed and mentored a team of designers and developers, ensuring efficient project delivery.
- Led the development and implementation of website and software solutions to streamline operations for DEVCON Bacolod and its partners.

Chief Technology Officer Aug 2023 – July 2024

Google DSC - University of St. La Salle | Former Tech Officer and Lead (Aug 2022 - 2023) Bacolod City, Philippines

- Built various software projects and established strategic direction for the technical initiatives.
- Mentored and trained student developers on industry best practices and relevant technologies.

Software Developer Aug 2023 – July 2024

Google Developer Groups Bacolod (Seasonal)

Bacolod City, Philippines

- Developed software solutions to support GDG Bacolod activities and large-scale events.
- Collaborated with a web developer to design and build a full-stack web application for generating e-certificates for an event with **800+ participants**.
